

## Review

Work with your team on Project 1. Report here on your current progress, any problems you've run into, and what your plan is for finishing up.

■

## Preview

You'll be providing some of the content for this week, in the form of your project 1 presentations. In a single paragraph, describe the intuition and/or key ideas behind the extension that your team is presenting. What two or three things do you most want your classmates to get out of your presentation?
